

Media release: Sunshine Heights Cricket Club Announces ongoing sponsorship with Adapt Australia

22 November 2018

Sunshine Heights Cricket Club is delighted to announce a landmark ongoing sponsorship with Adapt Australia, an organisation that leads in the provision of high quality, innovative and reliable solutions to the Energy sectors. Today ADAPT Australia's Products are in service in over 95% of Energy Utilities in the Electrical, Rail, Gas, Water and mining sectors within the Australian Pacific markets and are serviced with offices in Melbourne (Head Office), New South Wales, Queensland, Western Australia and New Zealand.

In addition, Adapt Australia is renowned for its support of cricket in the Western suburbs of Melbourne and has over a long period of time supported premier cricket club Footscray and sub district club Williamstown.

The sponsorship of Sunshine Heights Cricket Club is further support for the club the Sandars family spent much of their time over four decades and continues to do so today.

Peter Sandars, managing director Adapt Australia explains, "We are very keen to do everything in our power to continue nurturing participation pathways for young people in the west of Melbourne to be the best they can be and to flourish in the things they are passionate about."

Sunshine Heights Cricket Club president Nick Hatzoglou says, "We're thrilled to have Adapt Australia as our major sponsor for a non-defined ongoing period as this provides surety for the volunteers on the committee and the members of the club going into the future."

Nick said "The Sandars family has a long association with the Sunshine Heights Cricket Club and we know their philosophy around giving young people every chance of success is mutually inclusive with our own values."
